FAST Solutions℠

The Worlds Largest Industrial Vending Solution

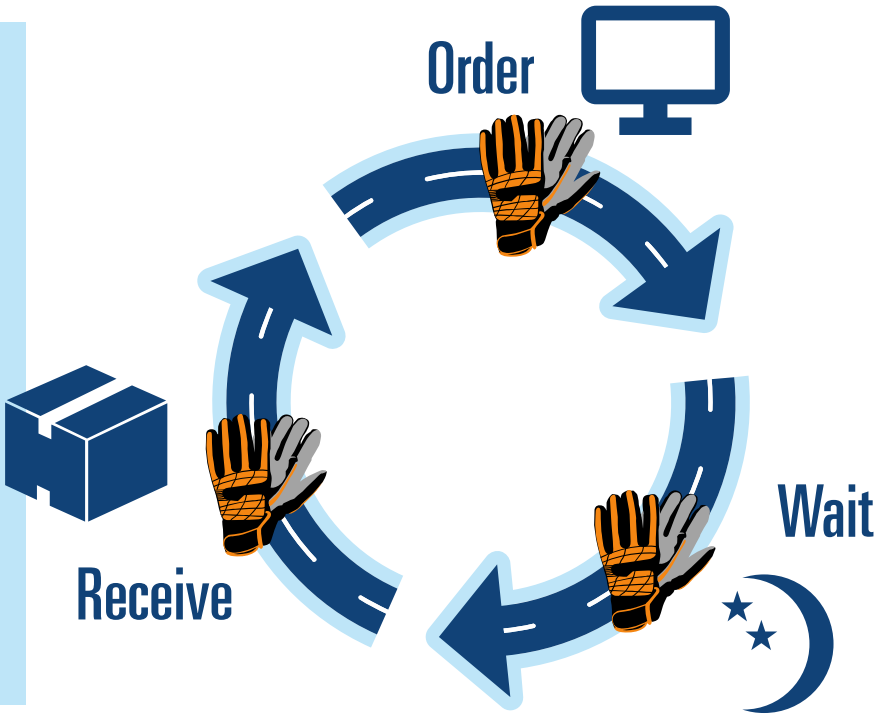
These Transformed your Life.

These will Transform your supply chain.

FASTENAL

The 24-48 hour paradox

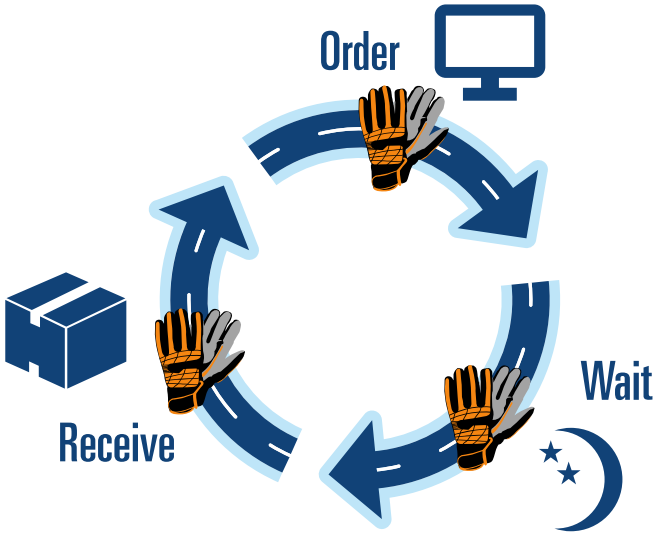
- 24-48 hrs. accepted as 'good enough'
- Supplier feeds cycle of reactive, high-cost transactions
- Unplanned becomes the norm, TCO opportunities are lost



FASTENAL®

Transactional vs. Strategic Supply

This is what transactional supply looks like:



This is what strategic supply looks like:

Local Inventory

Vendor-Managed Flow

Right Amount, Right Place, Just In Time

Why Vending?

- ✓ Consumption reduction of a conservative 30%
- ✓ Reduce administrative redundancies
- ✓ 100% visibility consumable spend
- ✓ Standardize products
- ✓ Leverage spend to negotiate pricing
- ✓ Control who has access to supplies
- ✓ Reduced shopping trips
- ✓ Reduced stock outs and down time
- ✓ Automated reordering and restocking
- ✓ Reduced shrinkage and waste
- ✓ Reduced procurement costs – Punch out template
- ✓ Increase safety, compliance, and track injuries

Total Cost Savings Solutions

- **Reduce Product consumption-** set controls so that workers only have access to products(and amounts) needed from the job. Track usage by individual, as well as group, job, cost center – up to six levels of information you want to know.

- **Improve Productivity –** Product is always immediately available to the workers who need it.

- **Automate ordering-** when stock runs low, your local Fastenal store receives an automated replenishment alert, eliminating P.Os, stock outs and costly rush orders. – Product can be placed on a quotation and posted on the punch out.

FAST Solutions Advantages

- **No Capital Expense –** Fastenal absorbs the cost of the machine, installation, training, product packaging, and inventory management.

- **A Turnkey Solution –** Fastenal handles everything from machine delivery and installation to product packing and re-stocking, saving you time and money.

- **Flexible Web Reporting-** Use our secure reporting website to manage your machine's settings and view real-time inventory and usage data.

- **Easy Installation and Operation-** all you need to get up and running are a 110V outlet and an open internet connection. Requires minimal effort from your IT personnel.

Vend virtually anything you want to **track**, **control, or Standardize**...

FASTENAL®

Dare to Compare

Certain vending providers are touting “free” programs, but that term often glosses over a range of hidden fees. At Fastenal, your business is too important for us to “nickel and dime” you with hidden fees, that’s why we offer a simple straight forward program with no surprises.

- ✓ **Wide Variety of Machine Types**
- ✓ **No Capital Expense**
- ✓ **Machine Reconfiguration**
- ✓ **Easy to Use Machines & Software**
- ✓ **Customizable Reporting & Alerts**
- ✓ **Software Support & Training**
- ✓ **Delivery & Installation**
- ✓ **IT Resources**
- ✓ **Product Packaging**
- ✓ **Machine Repairs & Maintenance**
- ✓ **Clean Organized Appearance**
- ✓ **Inventory Management at the Machine Level**

FASTENAL®

More

SINGLE PRODUCT CONTROL

Less

FAST 5000, FAST 3000, FAST 2000CT & FAST 4000CT

These machines give you maximum control over highly consumed items. The user has access to one product at a time: one transaction = one item dispensed.

FAST 10000SL LOCKER UNITS (18, 24 & 27 DOOR)

The user makes a selection to unlock a cabinet, and sensors automatically detect the number of items taken (based on weight). So, you can can take multiple items within the cabinet, but you're 100% accountable for each item you remove.

STANDARD LOCKERS UNITS
(3, 12, 18, 27, 30 & 36 DOOR)

Can be used to vend larger consumables or manage assets that need to be checked out and returned. Unlike the sensor-controlled SL lockers above, it's up to the user to input how many items he or she removes from the cabinet. Supports a vast range of product sizes – from spray cans to shovels.

FAST 10000SL CABINETS
(SINGLE DOOR, DRAWER-ONLY, DOOR/DRAWER COMBO)

The technology and process are similar to the FAST 10000SL Lockers – with "grab and go" access and individual item reporting. The difference is that each drawer/cabinet stores a larger volume of product, meaning users can potentially take more items at a time.
